SHIFTING GEARS

Our car needed a tune-up, so our neighbor Milt volunteered to do it for us!

There must be some way we could repay him, we thought —like letting him give our pussies a tune-up, too. He had the tool for the job!

**My roomie Brenda got
first taste of that slab
of dark meat —**

**— and then it was my
turn. Mmmmm, delicious!**

Brenda and I share an apartment, a car, lots of things, so why not a cock?

Besides, there's enough cock here for two hungry girls!

I bet he had a big load of
cream in there, just
waiting to come
streaming out all over us. I
wanted to see that!

I could tell by Milt's
sighing and groaning that
he liked what my mouth
and Brenda's were doing
to his hot, black flesh!

**Milt had the sudden
urge to taste white
pussy. He didn't have
to travel far to get
some. We were there
with our legs apart,
ready for him!**

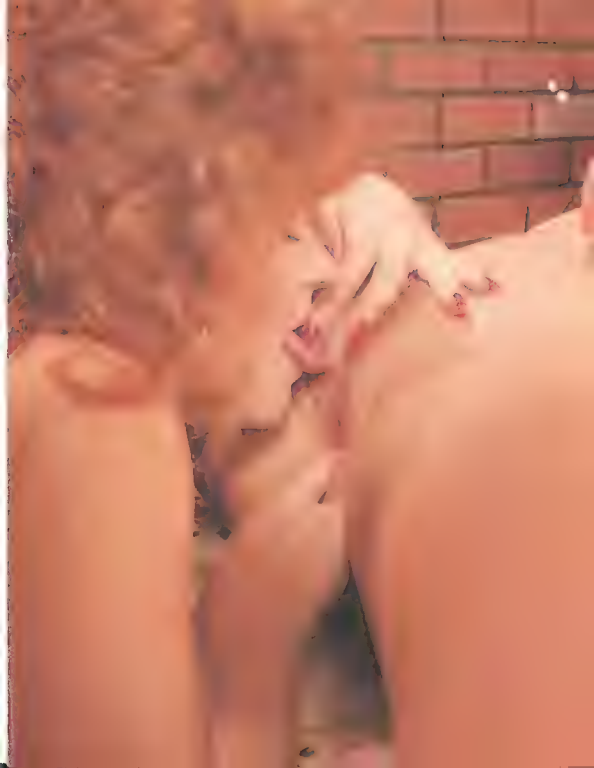

Milt was hot to stick his piston up Brenda's cylinder. That girl's going to get a lot of mileage on her twat!

It was fun watching this sex mechanic in action, but I knew I had to get that licorice stick up my body soon — and my pussy tingled with anticipation!

**Milt shot out a quart of
30-weight cream, just as
we knew he would!**

**Brenda and I think Milt
was amply rewarded for
tuning up our car. What
do you think?**

All models are 18 years of age or older
